

Product Specification

Model	BR9	Recordable Module	Category	Modules for Card
-------	-----	-------------------	----------	------------------

Feature	<ul style="list-style-type: none"> ● General purpose recordable module. Eg. Toys and gift packages. ● Use speaker as microphone to record. ● 9V battery connector 		
Operation	<ul style="list-style-type: none"> ● Record: Press and hold "Record" switch. LED indicator turns on and start recording. Release switch to finish recording, and LED turns off. ● Play: Press "Play" switch to play complete message once. 		
IC Function	20 seconds non-volatile recordable IC		
Operation Current	≤ 40mA (average)	Play time	1,000 times
Standby Current	≤ 0.2mA	Shelf Life	
Input / Switch	Push switch x2 (Play, Record)		
LED / EL	N/A	Color & Quantity	
Brightness		Speaker	40Φ Mylar Speaker
Sound Output	≥ 85 dB @ 10cm Distance (Surrounding at ≤ 60dB)	Size / Type	
Operation Voltage	9V	Battery Type	9V battery
Size (WxHxD)	PCB: 45x25mm	Material	
Weight	12g (Battery not included)	Packing
